

## SPOTLIGHT OF THE MONTH:

### DPI Specialty Foods

Henderson, CO

Source: <http://distribution-plus.com/location/dpi-rocky-mountain/index>

Monument will install a new *Duro-Last*® roof system on **DPI Specialty Foods** in Henderson, Colorado, measuring approximately 140,000 sq. ft.

**DPI** serves hundreds of retail locations from the largest of chain store customers to single store independent accounts. **DPI's** retail solutions include facets of retail support from direct store delivery, full service ordering and stocking programs to cross dock warehouse solutions.

The distribution center located in Denver, Colorado, offers state-of-the-art order processing, product handling and selection accuracy as expected by its vendor partners and customers. **DPI's** fully integrated facility offers HACCP certified and Organic certified custom cut and wrap cheese processing that is available to process cheese and other products and provide cupping and labeling solutions. **DPI's** fleet of trucks are multi-temperature and capable of offering store door delivery or cross dock solutions as desired by customers.

## WHAT'S HOT?

September 23<sup>rd</sup> may have kicked off what some know as Fall or Autumn and that may mean cooler weather, but that doesn't necessarily equal a cool building or roof.

As a matter of fact, as long as the sun shines down on asphalt, tar, gravel, oil, concrete and other roof materials – some of which may be components of your roof system – the roof will remain hot even if it happens to be a built-up or even a **TPO** (thermoplastic olefin) roof.

*Monument Roofing Systems* specializes in the *Duro-Last*® roof system which is **PVC** (polyvinyl chloride) system that is *Energy Star*® rated and reflects up to 88% of the sun's energy. This system not only keeps your building cool and reduces energy cost, but it also promotes environmental responsibility.

## Noteworthy Matter

Alexandria, LA

**Rapides Parish Library** is a fine example of what other libraries should do! After all, one would think that all the books and other texts stored in a library should be protected from moisture and the elements to say the least.

*Monument* is soon expected to be installing approximately 30,000 sq. ft. of *Duro-Last*® on **Rapides Parish Library**.

Nationally-Ranked  
**TOP 100**  
Roofing Contractors

## Nationally Ranked!

*Roofing Contractor* magazine publishes a list of top 100 contractors every year, and this year's issue has been released. *Monument* made the list!

Just to remind our readers *Monument Roofing Systems* is in Colorado, Oklahoma, and Louisiana with Corporate Headquarters in Texas. However should there be a commercial or industrial roof need elsewhere just let us know.

*Monument* strives to continue to be  
**A Leader in Green  
Commercial Roofing Technology!**

# PROJECT UPDATES

Englewood, CO

## Fly International Jet? Fly Green.

Aircraft and jets require protection from the weather and elements just as office buildings, business facilities, and retail centers.

International Jet Aviation recently selected Monument to install a Duro-Last® roof system.

Fairfax, OK

## Woodland High School = A School Going Green

Woodland High School in Fairfax, Oklahoma, understands the importance of being environmentally responsible. Woodland will be receiving a new Duro-Last® roof system on its Athletic and Agri-Service buildings installed by Monument.

March 10, 1974 – September 2, 2010

## Remembering Shelly

Shelly Stinnett worked at Monument Corporate Headquarters at the time of her passing.

Shelly was a great asset to the Monument team and will be deeply missed by all of her friends and family.

### STAFF APPOINTMENTS:

~ Sean Wiley ~

Monument – Oklahoma: Sales

~ Tom Lanza ~

~ Mike Holland ~

Monument Corporate Headquarters: Operations

## CORRECTION

<http://www.nwtech.edu/>

Alva, OK

## Northwest Technology Center

Last month, in September's MONUMENTAL NEWS, we had an incorrect picture for Northwest Technology Center (NWTC) in Alva, OK.

Monument would like to sincerely apologize to all those involved at NWTC. This picture (above) is now accurate in showing the exterior of the Northwest Technology Center.

This job will involve Monument installing approximately 54,000 sq. ft. of Duro-Last®.
